the magic you can't see

500 internal server emotions

200 OK and so am I

```
SELECT * FROM coffee
WHERE strength = 'max';
```

404 sleep not found

```
DROP TABLE stress;
Query OK, 0 rows
affected -- still stressed
```

ON DELETE CASCADE
(it took everything)

```
$ git push origin main
✓ deployed to prod
× on a Friday
```

SQL

```
await life.getTogether();
// Promise {<pending>}
```

IT'S NOT DNS
there's no way it's DNS
IT WAS DNS
